

SMART LUBRICATION FOR ALL

The electromechanical single-point lubricator FAG OPTIME C1 Pro ensures that lubricant is delivered reliably, as needed, and automatically to the lubrication point for up to 24 months.

› More information
FAG OPTIME C1 Pro

TECHNICAL DATA

≤ 15 bar (≤ 218 psi)

60, 120, 240 cm³ (cc)

–20 bis +60 °C
(–4 to +140 °F)

Mesh technology

Grease up to NLGI 2

≤ 24 months

OPTIME ECOSYSTEM

FAG OPTIME C1 Pro is part of the OPTIME Ecosystem, which combines condition monitoring and lubrication monitoring.

Good to know:

- OPTIME CM detects possible under-lubrication, which can be addressed remotely.
- With the OPTIME app, operating data and alerts can be displayed transparently.

BENEFITS

- Lubrication can be stopped or adjusted via mobile devices.
- Excessive back pressure is reported.
- Cartridge fill level is displayed and automatically converted into remaining days.
- Alarms are reported automatically.
